

SAP Business One

- A single integrated system to streamline the entire business: Financials, Sales Service, Retail and Manufacturing.
- Get instant and complete information: use Excel-based drill-down reports, real time on Desktop or web based.
- Drive customer-centered growth built-in CRM and E-commerce: allows better manage sales cycles, expand online sales, and respond faster to your customers' needs with web based customer self-service.
- Proactively focus on what's important: workflow-based alerts to monitor and take action on specific business events.
- Adaptable to changing needs: with an innovative, model-driven approach and 350+ ISV solutions.
- Designed specifically for small businesses: it is an affordable, award-winning product built from the ground up exclusively for small businesses by SAP, the world's largest business software provider. As a single, intuitive system, it is easy to install, simple to maintain, requiring minimal IT support and user training.
